

The background image shows the interior of a modern, minimalist space. In the foreground, there are dark wooden tables and light-colored chairs. A large window on the left looks out onto a city street with a blue car. The back wall is light blue with several large, empty gold-colored frames. There are some armchairs and a small table in the background. The overall atmosphere is clean and contemporary.

Your Vision, Our Craft: Bespoke Candles & Gifts

At Embers + Apothecary, we specialize in hands-on candle-making experiences that bring creativity to life.

In addition to our in-studio experiences, we also offer custom candles and gifting services for those looking for high-quality, personalized scented items to celebrate an event, enhance a brand, or create a signature product.

Our approach is rooted in craftsmanship and customization, ensuring every item is designed with care.

The following pages outline our standard options and pricing, with opportunities for full customization—including vessel selection, scent blending, and branding.

Highly Customizable Gifts & Private Label

We offer fully personalized candles and gifts, from vessel selection to scent blending and branded labeling. Whether for corporate gifting, personal events, or private-label production, we tailor each order to your needs.

Design Your Own Scent

A complimentary scent consultation helps you craft a unique fragrance using blends from our curated library.

Pick The Perfect Vessel

Choose from a variety of vessel styles. Once you've selected a size, we'll provide options to match your aesthetic.

Customize Your Labels

Available for select products—we can apply your design or help refine one to match your event or brand.

What Makes Our Candle Special?

We use a luxury coconut apricot wax blend—a natural, sustainable choice known for its clean burn and superior scent throw.

How Long Does It Take?

Based on complexity, we complete orders in 1 to 4 weeks. Candles need 2 more weeks to cure after pouring, so we suggest ordering at least 3 weeks ahead to ensure they're ready to burn when gifted.
